**One of the best kept secrets of this year's Mackay Festival of Arts has to be the shopfront exhibition being developed by Brisbane Artist Hiromi Tango.**

One of the best kept secrets of this year's Mackay Festival of Arts has to be the shopfront exhibition being developed by Brisbane Artist Hiromi Tango.

At the beginning of the festival Hiromi with her eight month old daughter took up residence in an empty shop inside the Mackay CBD.

Her vision, with the interaction of others, was to develop the space into a work of art.

Using various arts and crafts, along with artistic donations, locals have spent time within the space growing the art and have even been treated to the occasional performance from Hiromi.

The exhibition will be on display for the duration of the festival.
